TUTTLE'S

Small Fruit Plants

Spring of

1920

Baraboo Valley Nursery

Established 1860

C. R. TUTTLE

Baraboo

- - - Wisconsin

1860

We grow our own plants and guarantee them true to name.

We dig and ship our plants every day by Parcel Post, so they reach our customers alive and fresh.

We have no agents, but sell our plants by mail only.

We want you to be pleased with plants bought of us so you will give us your order year after year, and recommend us to your neighbors and friends.

There is one secret in setting plants, so the most of them will live and grow. Pack the soil solid around the roots by stepping on both sides of the plant with your whole weight. A plant set loosely will die.

When you order plants, say when you want them shipped, or better send a postal several days before you are ready for them. Better have the ground wait for the plants than to have the plants wait for the ground.

Strawberry Plants

Aroma (Per.) Plants and berry large. Medium late, round berry, good quality.

Brandywine (Per) Plants and berry large. Medium late, highly colored and firm.

Dr. Burrill (Per.) Plants medium size, berry good size and firm. Color medium dark red, ripens early, long season.

Gibson (Per). Plants medium size, berry good size and firm, dark red. Long season.

Haverland (Imp.) Plants and berry large, medium early. Good size, light color.

Joe (Per.) Plants and berry large, dark red and firm. Medium late.

Sample (Imp.) Plants and berry large. Medium late. Good color. Aroma and Brandywine set well with Sample.

Senator Dunlap (Per.) Plants medium size. Dark red, long season. Warfield and Haverland set well with Dunlap.

Warfield (Imp.) Plants small, berry medium size, good color. Sets well with Dunlap.

Enhance (Per.) Plants and berry large. Medium late, dark red; good shipper.

Minn. 935 (Per.) A new one, and good, but short season. Plants and berries large; good color.

Klondike (Per.) Plants and berry good size. Medium dark red. Season late. A good one.

Judith (Per.) Plants and berry large size. Sixteen berries to quart. Try a few of this one.

Hunterdon. A new one. Large plants and berry. Order a few for trial.

Everbearing Varieties

You can set a bed of these plants this Spring, and get berries from July until Nov. this year, and they will be among the earliest to bear next year. We head the list with Progressive. While not so large berry as some others, they bear heavy and long season.

Progressive (Per.) Plants and fruit medium size, berries dark red; long season; heavy bearer.

Superb (Per.) Plants and berry large; medium dark red; season later than Progressive.

Minn. 1017 (Per.) Plants and berries extra large, season later than Progressive; makes very few plants; have counted 135 berries on one plant, Sept. 15th.

Lucky Strike (Per.) Plants and berries extra large; season later than Progressive; makes very few plants; have counted 137 berries on one plant, Sept. 15th.

Red Raspberries

Cuthbert. Large size; best quality; very productive; season medium to late.

St. Regis, Everbearing. Season early. Berries medium size; heavy bearer; extra hardy; young canes bear in Fall.

Minn. No. 4. Large berry; extra hardy; a good one.

Herbert. This is a good berry and hardy.

Erskin Park. This one is good and hardy.

Sunbeam. A good one and extra hardy.

Rener's Everbearing. Not hardy but young canes bear fine in Fall.

Plum Farmer Blk. Cap. The best.
